Summary

Frontend Developer with 1+ year of professional experience building responsive and user-focused web applications using React.js, Next.js, JavaScript, SCSS, and TanStack Query. Experienced in developing reusable components, integrating REST APIs, managing application and server state, and translating UI designs into clean, maintainable interfaces.

Work Experience

- Frontend Developer, *Craftnotion***09/2025 – Present
- Developed and maintained 10+ responsive websites and web applications, delivering user-facing interfaces and business-focused application features.
 - Built responsive and reusable UI components from Figma designs, maintaining consistent layouts and user experiences across applications.
 - Developed dashboard interfaces and data-driven features for applications involving project management, user management, reporting, and business workflows.
 - Implemented authentication, role-based access, and permission-driven UI functionality across web applications.
 - Built and integrated forms, file management interfaces, API-driven features, and interactive application workflows based on project requirements.
- Frontend Developer Intern, *Craftnotion***06/2025 – 08/2025
- Developed responsive UI screens and dashboard interfaces based on project requirements.
 - Translated Figma designs into responsive, pixel-accurate frontend interfaces.
 - Collaborated with the development team to implement frontend features and resolve UI-related issues.

Skills

Frontend HTML5, CSS3, JavaScript, React.js, Next.js	Libraries & Tools TanStack Query, NextAuth.js, React Hook Form, Yup
Version Control Git, GitHub	Development Tools VS Code, Antigravity

Projects

- Weldex**
- Developed frontend interfaces across the public product website, admin dashboard, employee management.
 - Implemented role-based authentication and permission-based UI access for different user types.
 - Developed the frontend workflow for QR code generation and batch management, including quantity configuration and vendor assignment.
 - Built reusable forms and UI components with dynamic fields and validation for different application workflows.
- Linco LLC — Internal Project Management Dashboard**
- Developed and maintained an internal dashboard for project, employee, user, and file management.
 - Built interactive project tracking and data visualization interfaces to support project monitoring.
 - Implemented role-based access control (RBAC) to manage feature and page access based on user permissions.
 - Built a file management interface with folder navigation, file uploads, search, and file management actions.

Education

B. Tech in Computer Science (CSE), *KG Reddy College of Engineering and Technology*08/2019 – 08/2023
